UNIST is a member of the SEA-EU alliance, whose mission is supporting joint research, development and innovation on pan-European level. That mission requires new models of cooperation and management, built on the shared experiences, know-how and networks that will be discussed and broadened during this staff week in order to face challenges for joint management of everyday work activities.

<https://ec.europa.eu/futurium/en/europass/digitally-signed-credentials>

Digitally-signed credentials are electronic statements issued by an awarding body to an individual to confirm and provide proof of their learning outcomes. The objective of the Europass DSC framework is to enable the easier understanding and verification of qualifications, and other evidence of learning. The conference will gather European experts on the issue, led by UNIST Expert Group, the European Commission Europass Advisory Group and the European Qualifications Framework Advisory Group.
