Tourism Sustainability in Urban and Rural Areas

Erasmus+ Blended Intensive Programme

Intended for students
who are studying
tourism or related
subjects

Virtual component:
3 to 5 February 2025

Physical component:
10 to 14 February 2025

Co-funded by
the European Union

The University of Malta is proud to host the Blended Intensive Programme on **Tourism Sustainability in Urban and Rural Areas**. The BIP is of interest to students of tourism, urban geography, sustainability and related subjects.

Course content

Tourists engage in activities and use facilities that have sustainability implications. At the BIP, professors from the SEA-EU universities will give presentations that will touch upon one or more of the following:

- Sustainable Development Goals
- Climate Change
- Efficient use of resources in tourism
- Sustainable approaches to hospitality
- Walkability and urban quality
- Sustainability implications of tourism travel
- Conservation of urban heritage
- Tourism impacts on city residents
- Innovative tourism product development
- Rural tourism and sustainability

Dates

Virtual component:
3 to 5 February 2025

Physical component,
lectures in Malta:
10 to 14 February 2025

Application

If you are interested, kindly contact the International Office of your university.

Deadline for applications:
15 November 2024

The BIP is organised by the **Department of Tourism Management** in collaboration with the **International Office** and **SEA-EU Office** of the University of Malta.

The BIP is organised under the auspices SEA-EU Alliance that includes:
